

MCS – Meet the experts  
in innovative hire software solutions

# achieve

At MCS, our mission is to develop and deliver proven best of breed hire and rental software solutions and associated support services that make your hire business more efficient, competitive and profitable, thus enabling you to achieve a sustained competitive advantage.

# grow

It all started for us in 1983. At that time, we developed a hire software solution that would revolutionise how the industry works. One that would automate procedures, control costs, manage assets, co-ordinate contract and customer information, enhance business performance and deliver a competitive advantage.

It was a huge success. Since then we have developed it, extended it and enhanced it. And we have grown. Now we offer MCS-*rm*, our world-beating hire software solution, and MCS-*vr*, our exclusive vehicle hire solution.

Both products are based on decades of experience, in-depth industry knowledge, technical expertise and reassuring customer service. Both offer innovative, world-beating solutions to all your hire requirements. And both enable you to increase business agility, improve customer service, increase customer loyalty and grow your business.

# rely

At MCS, we make it a point to work with you to understand your individual business processes, challenges and key drivers. Each solution we put in place comes with an

in-built understanding of your needs from a technical, operational and end-user level. This successful approach is proven by over 350 customers in 14 different countries using our hire management solutions. This equates to over 4000 users worldwide who rely on MCS hire software every working day to achieve performance gains and operational efficiencies.

***We have excellent customer references in many hire sectors:***

- |                         |                          |
|-------------------------|--------------------------|
| Plant                   | Truck                    |
| Tool                    | Portable Sanitation      |
| Internal Plant and Hire | Container                |
| Crane                   | Portable Accommodation   |
| Operated Plant          | Generator                |
| Powered Access          | Medical Equipment        |
| Forklift Truck          | Scaffolding              |
| Audio Visual            | Surveying                |
| Event and Catering      | Traffic Management       |
| Furniture               | Mobile Payment Terminals |
| Climate Control         | Plus many more .....     |
| Vehicle Rental          |                          |

# work

We work from our offices in Sandton and Roodepoort and travel to our customers throughout Gauteng, Kwa-Zulu Natal, the Western Cape and Mpumalanga. We provide direct in-country support in South Africa and further support our customers via our customer club and international web-based help desk. We work with a number of business partners including third party software and hardware systems experts and consultants. Our team of experienced and skilled people are dedicated to developing and marketing our products as well as supporting our customers. So it doesn't matter where you are – ***we are here for you.***

# smarter
